

Pandurang Nakule

AWS Certified Solutions Architect – Associate | Cloud Engineer

infra.pn@gmail.com | +91 9370070369 | linkedin.com/in/pnakule | github.com/pnakule

PROFESSIONAL SUMMARY

Cloud-focused candidate with hands-on experience building and deploying AWS solutions using EC2, S3, IAM, VPC, CloudFront, and Route 53. Basic knowledge of Linux and networking, with project-based experience.

TECHNICAL SKILLS

AWS Services: EC2, S3, IAM, VPC, CloudFront, Route 53, CloudWatch

Other: Linux (Ubuntu), Bash (basic), Git, GitHub

PROJECTS

Static Website Hosting on AWS (S3, CloudFront, Route 53)

- Hosted static website on Amazon S3 with proper access configuration.
- Configured CloudFront for HTTPS content delivery.
- Set up Route 53 for domain routing.

Highly Available Web Application (EC2, ALB, Auto Scaling, VPC)

- Deployed EC2 instances behind Application Load Balancer.
- Configured Auto Scaling based on CPU utilization.
- Designed VPC with public and private subnets.

Serverless REST API (Lambda, API Gateway, DynamoDB)

- Built REST API using AWS Lambda and API Gateway.
- Used DynamoDB for backend storage.
- Configured IAM roles for secure access.

CERTIFICATION

AWS Certified Solutions Architect – Associate (SAA-C03)

Amazon Web Services | 2026

EDUCATION

HSC (Science) 2018

B.Tech, Computer Engineering — Discontinued 2019
